WEB DEVELOPMENT PROJECTS

210 HOPPER – PHP, LARAVEL, MYSQL, JAVASCRIPT, JQUERY, HTML, CSS, BOOTSTRAP

Capstone project at Codeup. In a team of 3 students, created a mobile-first web app that allows the user to find bars in San Antonio, see specials and event bars might have, find nearby bars and discover a random bar. Used Laravel as the framework of the site, while incorporating JavaScript and jQuery for additional functionality and MySQL for the database structure.

POKÉMON BLACK MARKET – PHP, MYSQL, JAVASCRIPT, HTML, CSS, BOOTSTRAP

Worked in a team of two people, utilizing MVC design, to create a Pokemon-themed Craigslist clone from an incomplete code base provided through GitHub.

GAME OF THRONES SIMPLE SIMON – HTML, CSS, JAVASCRIPT, JQUERY

Developed a basic Simple Simon game, based on Game of Thrones, incorporating only HTML/CSS and JavaScript/jQuery.
